Dear Carl

This letter will verify your reception of WJBC on May 1, 1973. I usually include some information of our station with my letters but you seem to have most of it from our sign on. As of the first of the year we have gone to 24 hour operations except Tuesday mornings from midnight till 5:00 am. Our FM outlet is now WBNQ with separate programming. Thank you for your interest.

Larry Shoel
Chief Engineer
