DAVE DYBAS
Chief Engineer—AM

February 7, 1990

Mr. Carl W. Dabelstein
9404 Santa Fe Lane
Overland Park, KS 66212

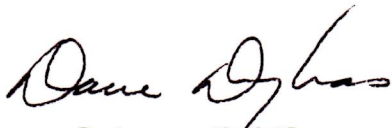

Dear Carl,

Thanks for the reception report. It's always a pleasure to get a DX report as detailed as yours.

At the time you received the WXEZ-AM signal, we were operating at a power of 5,000 watts omni-directional from our Elmhurst transmitter site. At 5:45 PM we switched to our 1000 watt directional antenna system and aimed our signal 43 degrees N.E., this may be why we disappeared on you at that time.

Unfortunately we do not have QSL cards or other items to offer. So for now please let this letter serve as your verification of reception.

Thanks again,

Dave Dybas, N9AGL
Chief Engineer-AM
