WNDE RADIO 1260, P.O. BOX 20167, 6161 FALL CREEK ROAD, INDIANAPOLIS, INDIANA 46220 317 257-7565

Dear Carl;

This confirms your reception of WNDE - 1260 KHZ between 2:00AM and 2:10AM-CDT on October 16, 1975

WNDE operates with a power of 5000 watts. Our daytime antenna is non-directional. Our nighttime antenna is directional with two main lobes at 171 and 351 degrees, we also have two smaller lobes at 81 and 261 degrees. When you recieved us we were operating on the Directional antenna.

Our main transmitter is a RCA BTA-5H and our alternate main transmitter is a RCA BTA-5U2. Both transmitters operate with an output power of 5000 watts. We were operating on the 5H transmitter when you recieved us.

We changed our call letters to WNDE in August of 1973. Our former call letters were WFBM. WFBM was the first commercial radio station in the state of INDIANA.

We also operate FM station WFBQ on 94.7 MHZ with an effective radiated power of 52,000 watts.

Thank you very much for your report.

Ronald P. Hyer - WB9CEX/KLJYO-Amateur Radio(Advanced Class)
