

7/20/87

Dear Carl,

I'm sorry that we have taken so long to respond to your listening report of KR22 (now KNSS-AM 1240). At the time, I was not employed at this station. KNSS & KR22 are usually simulcast,

Your reception report is accurate as stated. KNSS operates at 1 KW, day & night, from a 340' non-directional tower.

I am also a ham & DX'er, and understand the frustration of poor QSL responses.

Yours truly, 973's
Dan Conner NØEQR
C.E.
