Today's Weather Outlook

FROM RADIO STATION KSEK PITTSBURG, KANSAS

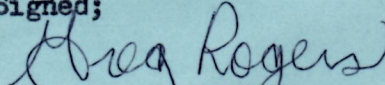

TO: Carl W. Dabelstein  
3300 N. 56th  
Lincoln, Nebr.

We are pleased to confirm your reception of our station on Sept. 20, 1972 from 12:01 to 12:04 AM on the frequency of 1340 khz.

Some information on our station; we run 1 kw daytime power and 250 watts nighttime power, on 1340 khz. Our station comes on the air at 6 AM each day and goes off at 1:00 am in the morning.

My name is Greg Rogers, I am an announcer here at KSEK radio. I also am a "Ham" operator too. My call is WA0UWS, here in Pittsburg. The engineer here asked me if I would take the time to confirm your letter. He too is a "Ham", K0USY is his call, Jack Buffington. I am really glad to help you out on your collection of broadcast stations. I hope this is sufficient evidence for your award.

Signed;

  
Greg Rogers WA0UWS
