Dear Carl:

This is to verify your reception of Radio Station KULY, Ulysses, Kansas, 1420 Kh., August 16, 1967, from 1:05 A.M. to 1:13 A.M. CDT.

Our present frequency check schedule is the third Wednesday of each month, starting at 1:05 A.M. We are licensed to operate 24 hours per# day, 1,000 W. daytime, 500 W. night., but our present normal schedule is 6 A.M. to 10 P.M. We are the only area station in Southwestern Kansas. We have a directional antenna, two phased towers, main radiation lobe is Northwest, but it seems to work well northward, too. When making frequency test we use daytime power.

Thanks for the comprehensive report.

Respectfully,

Tex Smith
