Dear Sir:

This will confirm your reception of W L O U
on July 23, 1971 - 7:30pm

W L O U first went on the air in the fall of
1948 with power of 1000 watts increasing to 5000
watts in 1958.

The transmitter is an RCA B T A - 5E -
feeding a 293 foot self-supporting tower by the unipole
method, the tower base being grounded, and the top
41 feet consisting of a G.S. 5 bay, channel 41 U N F
Helical T.V. antenna.

Thank you for your report.

Sincerely,

Radio Station WLOU

Chief Engineer
