Carl W. Dabelstein  
3300 North 56th Street  
Lincoln, Nebraska 68507

Dear Carl:

We are happy to confirm your reception report of WSON on 6 March 1972.

I am sorry we do not have any QSL cards and hope this letter will do. WSON operates on a clear Canadian channel of 860 Khz with a power of 500 watts daytime only. We use a 300 ft series fed tower and a Collins 550A1 transmitter.

Thanks again for your report.

73,

*Scott H. Chase*
