DEAR CARL;

I AM ALWAYS GLAD TO RECIEVE DX REPORTS. IN REFERRING TO YOUR LETTER ON MARCH 16, 1977, YOUR REPORT IS CORRECT WITH THE STATION LOG. THE COMMERCIAL YOU HEARD WAS BROCK'S EXXON.

WE RUN A SMALL MARKET COUNTRY MUSIC RADIO STATION WITH A POWER OF 1 kW, DAYTIME ONLY. OUR TRANSMITTER IS A COLLINS 20V-3 MODULATED TO 125% ON POSITIVE PEAKS. THE AUDIO IS PROCESSED BY A CBS LABORATORIES AUDIMAX WHICH FEEDS A COLLINS PEAK LIMITER.

I NEVER EXPECTED TO GET A DX REPORT FROM KANSAS. WELL, NOW YOU HAVE 47 VERIFICATIONS FROM THE BAYOU STATE. IF I CAN BE OF ANY MORE ASSISTANCE, JUST LET ME KNOW.

KEEP UP THE GOOD WORK
