Dear OM:

Many thanks to you for reporting reception of this station on December 31, during our frequency check transmission of that date. Don't hear from "Hams" very often though we appreciate the fact that they write occasionally. I am very grateful to you for your report, especially since I am W5VT here in Shreveport. We check frequency at KRMD with Commercial Radio Monitoring Service in Kansas City. Well, gotta get going as am on the job and don't have too much time. Thanks again and until next time 73 and good luck to you OM. ... -.-
