

# WAG<sup>N</sup> / RADIO

ELECTRIC SQUARE MENOMINEE, MICHIGAN UNION 3-5551

March 11, 1972

Dear Mr. Dabelstein:

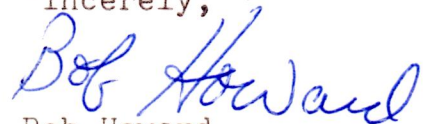

This letter is in response to your letter dated February 14, 1972, concerning the reception of Radio Station WAGN during a frequency check.

We were on the air during that time period and your information is correct.

Wagn operates with a power of 1000 watts daytime and 250 watts night time with a shunt fed 179 foot tower on top of the Menominee Professional Building.

Thank you for your letter of inquiry.

Sincerely,

Bob Howard  
Chief Engineer.
