March 9, 1982

Dear Mr. Dabelstein;

Thank you very much for the report of our test on March 1st. It seems as tho the code was the only thing that made it to Kansas during the test. At the time you picked us up, we were operating non-directional, at 500 watts.

Your report is correct, and enclosed is a folder on our station, and a QSL card to verify the reception. Thanks again for the report, and I hope that you will catch our next test.

Sincerely;

Frederick R. Vobbe,
Chief Operator - WHND Radio
