Mr. Carl Dabelstein
12524 "C" Street
Omaha 44, Nebraska

Dear Carl:

This is to verify the fact that you were not hearing things. We are on the air twenty-four hours a day and operate on 1230 KC and a power during the day of 1000 Watts, 250 at night. We are Southern Michigan's only 24-hour voice, and get out quite well with the small power.

Our tower is 405 feet high. Our new coverage map is being made and we'll send you one when they are available.

Sincerely yours,

Ron Roberts
WSTR
