January 11, 1982

Mr. Carl W. Dabelstein
8209 West 78th St.
Overland Park, Kansas 66204

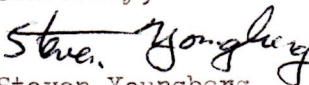

Dear Mr. Dabelstein:

I would like to confirm your reception of KBMO AM on January 4, 1982.
Your summary of our programming broadcast at that time is correct.

We have a 500 watt daytime station and broadcast from a 200 foot tower.
I can understand your problem with trying to null KOIL with a small
difference in angle. KOIL often comes in good here in central
Minnesota at night.

Thank you for the reception report.

Sincerely,

Steven Youngberg
Engineer
