Vice Pres., Gen Mgr.

April 25, 1978

Mr. Carl W. Dabelstein  
8209 West 78th Street  
Overland Park, Kansas

Dear Carl:

Sorry for the long delay. We've just gone thru a change of ownership and many things have fallen behind **Schedule**.

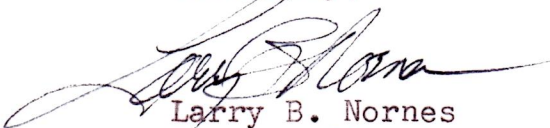

This letter will confirm that you did indeed hear KBRF conducting a monthly frequency measurement test.

KBRF operates with 1000 watts full time and three town directional night.

KBRF is one of the oldest stations in Minnesota, operating since October, 1926.

Sorry again for the long delay.

Cordially,

  
Larry B. Nornes  
Program Director
