John A. Harlow
Chief Engineer
KYMN Northfield

Mr. Carl W. Dabelstein
3300 North 56th Street
Lincoln, Nebraska

Mr. Dabelstein:

Thank you very much for your reception report of KYMN, dated October 16th, 1972. We have checked your report against our log and found it to be correct. You may therefore consider this letter a verification of your report.

Your report is the only one so far from Nebraska, others were from Illinois, Indiana, Pennsylvania, New Jersey, New York, Massachusetts, Virginia, and five reports from Canada.

Enclosed, find a KYMN coverage map, so many DXers have requested one that we are enclosing one with every verification.

Thanks again, Mr. Dabelstein, and do let us know if KYMN is heard again in Lincoln.

Good DX,

John A. Harlow
Chief Engineer
