Chief Engineer  
12/28/88

Mr Dabelstein,

This letter is to confirm your reception of KNNT AM 1540KHz on December 22, 1988.

KNNT operates with a daytime power of 1000 watts and 500 watts critical hours with a GATES BC-1G. KNNT has recently been authorized a night-time power of 1 watt that we operate with after local sunset using a home-brew transmitter.

I have just completed remodeling of our studios and have made several improvements on our transmitter and antenna system.

Our operating schedule for January is as follows: 24 HRS.

500 watts @ 7:15 AM

1KW @ 9:15 AM

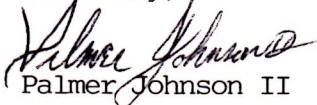

500 watts @ 3:15 PM

1 watt @ 5:15 PM

I hope this letter is of some assistance and please find enclosed bumper stickers.

Thanks for listening to the great AM-1540.

Sincerely,

  
Palmer Johnson II

KNNT/KTEI
