Carl Dablestein  
8209 West 78  
Overland Park, KS 66204

Dear Carl Dablestein:

Thank you for reporting your reception of our DX test of March 31. I can verify that you did indeed receive this station at the time of my test according to the information in your report.

KPCR uses a Gates Vanguard II transmitter, which uses a transistorized exciter followed by a one-tube Final using a 4CX3000A Tube. Our antenna is a series fed 5/8 wave Pirod tower.

I am enclosing a copy of our coverage map which is designed for our sales department.

Sincerely,

J. Paul Salois, Pres. G.M. C.E.

*PS. Nice to hear from you again, keep listening!*

*Paul*
