9404 Santa Fe Lane
Overland Park, Ks. 66212

Dear Carl:

Please accept this letter as confirmation of your reception of our AM station, KSFT.

We operate with 5,000 watts non-directionally during the daylight hours, and with 5,000 watts into a 5-tower in-line directional array at night. The night-time pattern has a very sharp null in your direction, so if you were to listen at exactly 8:45PM this month you would hear it switch.

I trust this will suffice in confirming your reception.

Sincerely,

Ted Mahn
Chief Operator
KKJO-KSFT
