KUDL

1380 K.C. • 1000 WATTS
KANSAS CITY, MISSOURI

TELEPHONE BALTIMORE 0077

January 23, 1961

Dear Carl,

Here is an acknowledgement of your reception of KUDL on January 22, 1961. Your enclosed program log was correct including identification, news, and weather at 7:30 am.

KUDL Radio in Kansas City, Missouri operates on an assigned carrier frequency of 1380 KC. with a power output of 1,000 watts. Our full-time application was approved last week and in the near future we plan to be on the air 24 hours a day with 5,000 watts day and 1,000 watts night. I would appreciate hearing from you again when our new rig is on the air to check the reception in the Omaha area.

Thanks for letting us know that Kuddle has listeners throughout the midwest. Lots of luck on the ham bands.

Yours truly,

Ted Atkins
Chief Engineer
KUDL Radio
Kansas City, Mo.
