Mr. Carl W. Dabelstein  
8209 West 78th Street  
Overland Park, KS 66204

Dear Mr. Dabelstein:

Thank you for your letter of September 1, 1986, regarding the Kansas City International Airport 1610 AM Travelers Information Radio Station. The message you heard being broadcast is an on-line test of the 10-watt transmitter. The transmitter is near the satellite parking lot at KCI Airport. The transmitter and antenna system were purchased from and installed under contract by Information Station Specialists of Davenport, Iowa (319) 322-4777. The TR-20 AM transmitter is manufactured by Radio Systems Inc. of Edgemont, Pennsylvania (215) 356-4700. Please contact these companies directly if you need technical information.

The radio system, when fully operational, will broadcast airport information to motorists on a 24-hour basis.

We appreciate your interest in the station. If we can be of any further assistance, please let us know.

Very truly yours,

George H. Goodale  
Administrative Assistant  
Airport Operations
