Carl:

This will confirm your reception of WHNY on 1250 kilohertz
at 7:28am CST, 22 November 1989.

Your report corresponds with our program log.

WHNY operates at 5-kw daytime, 1-kw nighttime/directional.
At the time of your reception output was at 5-kw unidirectional.

Thanks for the report and best of DX.

Sincerely

Doug Walker, N5LIP
Program Director
