Carl W. Dabelstein
8209 West 78th St.
Overland Park, Kansas 66204

Carl,

This is to confirm your reception of
our station on 950 KHz April 4, 1977. We
were on the air for a freq. check.

We operate with a four tower nighttime
directional antenna system with 5,000 watts.

Thank you for the information & interest.

Thanks again,
Donald D. Abner
Chief Engineer
KMTX
