Mr. Carl Dabelstein
12524 C Street
Omaha 44, Nebraska

Dear Carl,

Thank you for your recent reception report regarding our carrier and modulation test of March 31, 1963 at 12:21am to 12:25am on 900 kilocycles.

At present we regret that we have no coverage maps in print but we might comment that we have, and most stations in this area, excellent coverage to the north and south due to the excellent ground wave characteristics in the Red River Valley. We have received signal reports from as far south as Texas.

We have also received a report from Ernest Wesolowski in which we also are sending a reply.

As a ham you should have that Rhombic antenna Ernest has, Hi. Or at least hook on to it remotely.

Thanks es 73

Frank de Vall
Chief Engineer
