Dear Carl:

Am very happy to verify your report of reception of our station at 8 PM CST, on June 6, 1962. During this period, KBRL was operating on 5000 Watts and making field strength measurements for the F.C.C., proof of performance.

We are out of print on the coverage maps at this time, due to the fact that we recently increased power from 1000 watts to 5000 Watts.

Very truly yours,
