

KOWH

December 26, 1959.

Mr. Carl Dabelstein
1712 B Street
Omaha 8, Nebraska

Thank you for your report of KOWH on December 20, 1959. Your report has been verified according to our log. KOWH operates on 660.00 Kilocycles with a Power of 500 Watts. We use a RCA B1A-1L transmitter located about 6 miles northwest of downtown Omaha. Our transmitter is completely remotely controlled by the Shaffer System. We use a 500 foot guyed tower. The tower is equipped for FM Broadcasts.

Hope this will be of interest to you and here's wishing you many happy listening hours with your hobby.

Sincerely yours;

C. E. Woodard
Chief Engineer of KOWH.
