November 5, 1963

Mr. Carl Dabelstein  
12524 "C" Street  
Omaha 44, Nebraska

Dear Mr. Dabelstein:

This will confirm and serve as a verification of your DX report of November 3, 1963.

Thank you for your very nice letter and I am pleased to note that we have a S 7 in Omaha. WJAG is operating at the present time on a Gates BCL-E 1,000 watt transmitter. We will soon go on the air with a new Bauer which is more efficient. Would enjoy receiving your comments as to our signal strength and reception around December. By this time we would have the new transmitter in operation.

Thank you for your letter.

Sincerely,

*Don Whan*
