Mr. Carl W. Dabelstein
9404 Santa Fe Lane
Overland Park, KS 66212

Dear Mr. Dabelstein:

This is to verify your reception on October 10th, 1989 of KATK-AM at 740 Khz between 6:54AM and about 7:10AM. Thank you for the report and please accept my apologies for not getting your first report.

Radio 74 operates 24 hours a day, non-directional at 1Kw daytime and .5Kw nighttime with morning power-change at 7:00AM Mountain Time, which would have been 8:00AM your time. So your reception was at 500 Watts.

Your reception was at the transition for us, from our overnight simul-cast with KATK-FM at 92.1Mhz in English, to our daytime programming in Spanish which begins at 6:00AM local time. I am surprised, as you indicated in your report, that KRMG, Tulsa wasn't covering us. Most mornings they come in strong here when we cut our modulation to read our Antenna current.

Thank-you again for the report.

Sincerely,

Frank A. Nymeyer
Radio Carlsbad
