Carl:

Thank you for your 'DX' letter of April 17, 1984.

I am happy to verify that you did, indeed, receive the REAL VOICE OF DAYTON, WAVI-AM. We are a one-thousand-watt Dayton Daytimer, having increased our power from 250-watts to one-thousand watts in October of 1983.

we have received several 'DX' cards from the Saint Louis area, but in MY file, your's is the farthest West we have ever reached.

I visited my sister in Kansas City last year, and found it to be clean, with an exciting nightlife, and VERY HOT !

Dayton is known as 'SINUS VALLEY', because of the extreme humidity and high pollen count in the summer.

Enclosed with this verification letter are some WAVI-AM Bumper Stickers, and some WDAO-FM Bumper Stickers. WDAO-FM is a 50,000 Watt (ERP) 24-hour Stereo Contemporary Music Station.(107.7 FM)

Thanks for your letter, and 'Keep Listening !'
