Dear Carl;

This is to confirm that what you heard on November 21, 1981 was apparently us. I too find it strange that we would have that kind of signal strength in the Kansas City Area especially around 5pm in November. I suppose it is just one of those strange quirks in the radio business.

When you were listening we were just wrapping up the Oklahoma-Nebraska Football game, and we did sign-off at 5:15pm that evening. We are a daytime station only as you probably know. I imagine that the inference from KFAB was also the Oklahoma-Nebraska Football game from their network. How very odd that we and KFAB at that time would have so similiar programming.

Thanks for writing, we always enjoy hearing from folks monitoring us from so far away. I have enclosed one of our rate cards for your file as well as a coverage map.

Sincerely;

Ronald E. Ball
