KOMA OKLAHOMA CITY

Dear Listener,

Thank you very much for your report of reception of Radio Station KOMA on November 24, 1963. We hope you will make listener to the Oklahoma City Tiger a habit.

KOMA operates 24 hours a day on 1270 Kilocycles with a full-time power of 50,000 watts. We use a "heart-shaped" pattern from our three tower array for night-time, 454 with the major lobe towards the Northwest. KOMA's studios and transmitter are located south of Oklahoma City in a City called Moore, Oklahoma.

We would appreciate any letter to your station that you might have regarding KOMA.

Thank you very much for your report.

Yours truly,

Philip J. Robbins
Public Affairs Director
