

16 February, 1982

Carl W. Dabelstein
8209 W. 78th
Overland Park, Ks.

Carl:

In response to your letter RE: reception of W*W*L*S at 640 KHz (468.75 metres) on 02/07/82; I have checked with the operator on duty at the time who verifies your reception as being correct.

As to the time we changed calls from W*N*A*D to W*W*L*S, As per telegram from FCC, dated 12/04/81, we were granted a call change as a part of an on-going C.P. with eventual ramifications of adding three more towers and going twenty-four hours utilizing a north and east pattern during nighttime hours with a constant power of 1000 watts.

Thanks for your letter, and may the "wallpaper" I'm enclosing enlighten your wall nicely.

Sincerely,

A handwritten signature in cursive script, reading 'Joe Frank Thomas', is written in black ink over the typed name.

Joe Frank Thomas, Cheap Injunear
