August 6, 1975.

Dear Mr. Dabelstein,

Thank you for the reception report of April 20, 1975.

Radio Station CHOO has been operating for eight years on a carrier frequency of 1390 KHz with a power output of 10 KW. Our five-tower antenna array is located on the north shore of Lake Ontario and beams the signal in a northerly direction.

Programming is mainly country music, although at present we are carrying some ethnic and religious programs.

Thanks again for the reception report, and continued good luck with your DX'ing.

Sincerely,

Robin Jackson
Chief Engineer
