

KLAD

February 7, 1975

Dear Sir;

KLAD was happy to participate in your DX test and we have been receiving reports from all over the country. The most distant so far is from the state of Delaware.

The times and information that you contain in your log agree with the information in our logs and your reception report is a valid one. Thankyou for your part in the test and your enthusiastic interest in radio.

Sincerely

Lon Monroe
