February 27, 1962

Mr. Carl Dabelstein  
12524 G Street  
Omaha 44, Nebraska

Dear Mr. Dabelstein:

Thank you for your reception report dated 1-27-62 regarding your reception of KMED Radio in Omaha. A check with our operating logs for that date enables me to confirm your reception, and I am happy to do so. We get quite a bit of DX mail from all over the US and also the South Pacific. Seems as though conditions in the Midwest have been favoring reception of KMED as of late.

KMED has been on the air since 1922, and is one of the oldest AM stations on the West Coast. We recently began operations of KMED-TV on Channel 10, and now have a very modern broadcast plant.

Thanks again for your report.

Sincerely,

Ellis Feinstein  
Chief Engineer  
RADIO MEDFORD, Inc.
