

MARCH 12, 1986

Carl W. Dabelstein
8209 West 78th Street
Overland Park, KS
66204

Dear Carl:

Thank you for your letter of March 7th, 1986. Yes, that was KTOQ you monitored on Sept. 11th. We run frequency measuring tests approximately once per month. Our frequency is monitored and measured by Frequency Measuring Service of Commerce City, Colorado.

Our tests usually start at about twenty minutes past midnight (MST) with a legal ID and an announcement of the test, followed by five minutes of a 1000 cycle tone, then a closing announcement and legal ID.

KTOQ operates on an assigned frequency of 1340 kilohertz at 1000 watts with Top 40 and Top 40 Gold country music twenty fours a day.

Enclosed please find a Q Country bumper sticker and other info that may be of some use to you.

Once again, thanks for the letter and thanks for listening to Q Country.

Yours Very Truly,

A handwritten signature in cursive script that reads "Tim Lane".

Tim Lane

Assistant Production Director
