The Chief Engineer  
Radio Station K A D O  
304 West Broad Street  
Texarkana, Texas 75501

Dear Sir:

I am pleased to report to you my reception this evening of your radio station on 940 kilohertz at 5:02 p.m. Central Standard Time. The following is a summary of my reception at that time:

- 5:02 Recorded Country-Western Music with a female announcer.
- 5:06 A commercial announcement for the UniRoyal Tire Center.
- 5:06 The announcer told the listeners that they could sign up for the K A D O Country Club at 620 East Street.
- 5:07 Recorded Identification Jingle-"K A D O, your place in the country".
- 5:14 Sign Off Announcement. The announcer mentioned that the station's power is 2,500 watts.

During the entire listening period your signal was generally a good S-5 level with interference from several stations. My receiver is a Hammarlund HQ-180AC and my antenna is a 2' directional altazimuth loop.

If you find this report to be correct and to your satisfaction, I would appreciate very much receiving from you a brief letter or card stating that my reception of K A D O is verified. I have 2,029 verifications, including 174 from the Lone Star State. Yours would be a most welcome addition to my collection. I have enclosed a stamp for your reply. Thank you very much for your time.

Very truly yours,

*Carl W. Dabelstein*
