1530 KCS

COVERING THE SOUTH PLAINS  
RALLS, TEXAS

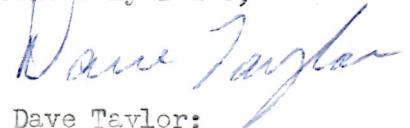

Reply to:

Dear Carl,

Thanks for your response to hearing our station. You copied our sign-off very well. KCLR is not a directional station, and we will very soon be 5000 watts. You should be able to read us every once in a while then for sure.

It sounds like you have a very good record of verifications. We are glad to add to that record, and thanks again for responding.

Sincerely Yours,

Dave Taylor:  
Chief Engineer
