

KJIM Radio

"Music for Adults"

CLEAR CHANNEL 870

FM 102.1

January 17, 1964

Mr. Carl Dabelstein
12524 "C" Street
Omaha 44, Nebraska

Dear Mr. Dabelstein:

We wish to express our appreciation for your recent reception report.

K-JIM's combined studio-transmitter facilities are located at the Trinity River in Riverside near downtown Fort Worth. The antenna is a 285 foot, tapered, guyed, series excited, vertical steel radiator. 180 equally spaced, buried copper radials, 300 feet in length comprise the ground system. Raytheon studio and transmitter components make up the basic equipment structure.

Again, thanks for your reception report and good luck in your DXing program. We enclose a copy of our coverage map.

Cordially,

Chester Lee Grubbs
Chief Engineer

CLG/maf
enc.
