Mr. Carl W. Dabelstein
8209 West 78th Street
Overland Park, Kansas 66204

Dear Sir:

Please accept this for confirmation of reception of KOZA on January 23, 1978 from 12:10 AM to 12:13 AM CST.

On the fourth Monday morning (12:10 AM to 12:20 AM) each month we broadcast with approximately 1000 cycle tone in order to have the station frequency measured by Southwest Frequency Measurements of Austin, Texas. We only operate with 250 watts power during that time as that is adequate for their measurement purposes.

Thanks for your report.

DXingly yours,

J. Simpson
