Dear Mr. Dabelstein:

Thank you for your letter of February 25. According to the information in your letter you were in fact tuned to KPBC.

We were operating at 500 watts, half power on a 500 foot antenna with the early sign on restrictions on our power as set out by the Federal Communications Commission.

We are delighted that you tuned our frequency and took this occasion to let us know how far out the station was reaching at that time.

Regards,
