

April 9, 1979

Dear Mr. Dabelstein:

Thank you for your letter of 6 April 79 concerning your receipt of transmission of that day's sign-off announcement. This letter is to act as a QSL. I am the voice on that announcement. We are a daytimer with PSA at 6 AM. Our output is 500 watts, omnidirectional, tower height: 212'.

Our C.E. is in the hospital, so I'm sending this QSL. We are fighting for permission to expand our broadcast day to midnight, as are many daytimers. "Clear-channel" is a "dirty word" around here.

Thanks again for your interest. Happy DXing!

Sincerely,

John Owen Butler
Program Director

P.S. - Jim from Junction City.
