FROM  
KROB AM-FM

Feb. 13, 1978

Carl W. Dablestien  
8209 West 78th Street  
Overland Park, Kansas 66204

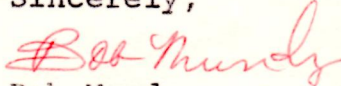

Dear Sir:

This is to verify that you were indeed listening to KROB FM January 21, 1978.

KROB is an AM FM simulcast station. Our AM is 500 watts, non-directional, daytime station, at 15.10 on the dial. Our FM is 36000 watts, also non-directional and is at 99.9 on the dial. We now have plans, and FCC approval to increase our FM power to 100,000 watts.

I hope this verification helps your collection, we are always interested in cooperating with members of the National Radio Club.

Sincerely,

Bob Mundy  
Operations Manager
