

KRZI

RADIO 1580

10/10/74
KRZI Radio
Waco Texas

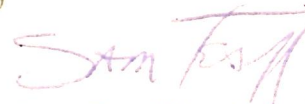

Dear Carl Dabelstein,

Apoligies from Krazy Radio. I took over as Chief Engineer a few days ago & found a stack of apparently unanswered DX letters. Among these was yours*. So this is to verify that you did receive KRZI on 10/29/73 according to your logging.

HAPPY DX'ing & 73's?

Sincerely

** see 10/29/73 log*

Sam Teaff -chief eng.

P.S. Enclosed is the key to finding something many times more precious than distant radio signals. As a radio engineer I don't accept anything without substnstantial proof or sound supporting logic as I'm sure is the case with you. After over a year of intensive study and research trying to prove what I'm sending you to be false, I could only prove it to be true and sound beyound a shadow of a doubt. Marconi no doubt recieved a lot of incredulous stares upon announcing that he could send messages through the atmosphere without the aid of wires, but had any scoffers staked their lives against his discovery they would have been very dead. the message enclosed is even more important than anything you could ever investigate, as your life is involved. When someone tells you something unbelievable, investigate so as not to miss out on the possible benifits of being informed.
