Mr. Carl W. Dabelstein  
9404 Santa Fe Lane  
Overland Park, KS 66212

Carl,

This letter will confirm your reception of  
KSSA 9-6-89.

You might find it of interest that we are  
one of the few (less than 5) stations in the Nation  
operating with synchronous transmitters. At night  
we have a 1,000 watt transmitter 6 miles ENE of  
Plano and, operating on the same frequency, we have  
a 1,000 watt transmitter in far East Dallas. This  
two transmitter arrangement allows us to cover all of  
the Dallas area at night whereas either transmitter  
alone can not cover enough area.

Thanks for your report.

George Whitaker  
Chief Engineer
