

July 30, 1982

Mr. Carl W. Dabelstein
8209 West 78th Street
Overland Park, Kansas 66204

Dear Carl:

This letter verifies your reception of KTXC on January 20, 1982 at 5:15 p.m. Central Time. We are located in Port Arthur, Texas and broadcast with 5,000 watts day and 1,000 watts night. We use a Continental 315F transmitter. Our antenna system consists of 400' $\frac{1}{2}$ wave vertical tower for daytime non directional, and is used in conjunction with a $\frac{1}{4}$ wave vertical tower for our nighttime directional signal.

Thanks for catching a listen. Maybe we'll sky in again some night.

Regards,

Pat McCauley
Chief Engineer
