Dear Carl W. Dabelstein

Certainly your reception of KVOZ was quiet clear according to our logs we ran exactly those spots Mr. Rooter at 1:35, then music in Spanish, then another spot, Professional Pharmacy.

Our format is Spanish International, 50's, 60's, 70's and 80's all mixed together.

On January of last year KVOZ moved to it's new FREQ. FROM 1490 down to 890, with power increase FROM 1 Kilo to 10,000 watts (10 kilo) and 1 kilowatt nighttime, and that's probably, that's because we change pattern at a given time. We now have a three tower directional to protect WLS 890 Chicago, and sometime, be increasing to 50 kilowatt fully directional. So if you can here us now, you'll be hearing us better in the future.

Thanks for listening, keep us tuned on your south Texas leader KVOZ, Laredo 890.

eng. Art Treviño
