Sir:

The information from your report of January 6, 1972 agrees with what was broadcast by KWHO-AM at 5:28 P.M.T on the above date.

The information was rather sketchy, but if the above will suffice for confirmation, consider it so.

Please forgive our tardiness, but the engineer who usually does reception confirmations has been very busy with some equipment problems. I'm told that only KWHO-FM conducts regular frequency checks since AM can be done during normal programming. Our yearly performance measurements are usually taken in May. Good hunting!
