Omaha, Nebraska**

**Dear Sir,**

This is a rather belated confirmation of your reception of our test broadcast of the morning of the fifth of November, but we hope it is better late than never. We are offering no excuse for our laziness so I guess we are a little lethargic around here sometimes.

We will have another special test broadcast for the National Radio Club on the morning of the third of March from 0000 to 0400 PST. Hope you can tune us in then, and tell other DXers in your area about our program, so they can give us a listen.

Sincerely,

**Dave Linder  
Staff Ann.
