WDLB BROADCASTING COMPANY

MARSHFIELD, WIS. 54449
AREA CODE 715-384-2191

January 29, 1973

Dear Mr. Dabelstein,

We are very sorry about the mix up. I found your first copy of the report. I am sending a coverage map which will explain most of our operation here. We are planning on changing our FM. Plans are a new 20KW transmitter with an ERP of a little over 50KW. We are remote control at the present time but with the change we will be putting up a new tower (425 feet) and this will be at the station.

Thank you again for the report and if you are ever in our area please feel free to stop in and see us.

Sincerely

WDLB, GOETZ BROADCASTING CORPORATION

F. Bary Nienow,
Chief Engineer
